FINISH

END

Multiplication and division - CE2

One set of 41 dominoes - Times tables from 2 to 10

10 divisions and 30 multiplications

Times tables from 2 to 10. All 40 answers are different: no repeated number on the left.

Preparation

Print at 100%, check the chain, cut out all 41 dominoes, then shuffle them.

Aim

Match each calculation to its answer, from START to FINISH, using every domino.

Taking turns

Place START. Work out the calculation and add the domino with that number on the left.

One matching answer

Only one domino has the answer you need. Follow the chain to FINISH.

Checking

If no domino fits, check the last calculation and the previous matches.

Answer key

The small labels D01 to D41 identify the dominoes in the complete chain.

Printing

A4 landscape, actual size. Each domino measures 125.43 × 46.02 mm.

Answer key - the complete chain

START = D01. After each calculation, take the next domino. FINISH = D41.

D01 : 3 × 6 = 18 > D02

D02 : 6 × 7 = 42 > D03

D03 : 7 × 5 = 35 > D04

D04 : 7 × 8 = 56 > D05

D05 : 90 ÷ 10 = 9 > D06

D06 : 10 × 6 = 60 > D07

D07 : 10 × 7 = 70 > D08

D08 : 2 × 6 = 12 > D09

D09 : 20 ÷ 2 = 10 > D10

D10 : 7 × 3 = 21 > D11

D11 : 5 × 5 = 25 > D12

D12 : 7 × 7 = 49 > D13

D13 : 9 × 10 = 90 > D14

D14 : 12 ÷ 4 = 3 > D15

D15 : 8 × 6 = 48 > D16

D16 : 10 × 10 = 100 > D17

D17 : 72 ÷ 9 = 8 > D18

D18 : 6 ÷ 3 = 2 > D19

D19 : 2 ÷ 2 = 1 > D20

D20 : 30 ÷ 6 = 5 > D21

D21 : 9 × 6 = 54 > D22

D22 : 42 ÷ 7 = 6 > D23

D23 : 9 × 9 = 81 > D24

D24 : 8 × 5 = 40 > D25

D25 : 4 × 4 = 16 > D26

D26 : 8 × 4 = 32 > D27

D27 : 4 × 7 = 28 > D28

D28 : 56 ÷ 8 = 7 > D29

D29 : 10 × 3 = 30 > D30

D30 : 8 × 9 = 72 > D31

D31 : 9 × 7 = 63 > D32

D32 : 6 × 6 = 36 > D33

D33 : 5 × 4 = 20 > D34

D34 : 10 × 5 = 50 > D35

D35 : 20 ÷ 5 = 4 > D36

D36 : 10 × 8 = 80 > D37

D37 : 6 × 4 = 24 > D38

D38 : 8 × 8 = 64 > D39

D39 : 9 × 3 = 27 > D40

D40 : 9 × 5 = 45 > D41

The sheets follow this order: left to right, then top to bottom.
