Number bonds to 100 dominoes

One set of 41 dominoes - CP-CE1

Preparation

Print at 100%, check the chain, cut out the 41 dominoes, then shuffle them.

Aim

Find the missing number in each addition to make 100.

Taking turns

Place START. Find the missing number, then add the domino with that answer on the left.

One matching answer

All 40 answers are different. Each question leads to just one domino.

Support

Use a number line or place-value materials if needed.

Checking

The sheets show chain order. The labels D01 to D41 refer to the answer key.

Printing

A4 landscape, actual size. Each domino measures 125.43 × 46.02 mm.

Answer key - the complete chain

START = D01. After each calculation, add the next domino. FINISH = D41.
