Numbers in six representations

41 dominoes - Numbers from 10 to 59 - One chain

Preparation

Print at 100%, cut out the 41 dominoes and shuffle them. The sheets show chain order.

How to play

Place START. Read the representation on the right. Add the domino with that number on its left.

Six representations

Number words, number lines, base-ten blocks, abacuses, tens and ones, and number discs.

Proportional blocks

Each rod contains 10 cubes identical to the single unit cubes. One rod represents one ten.

Reading number lines

Each interval is 1. No arrow points to a number that is already labelled.

Abacuses and discs

T: tens; O: ones. For number discs, read the values 10 or 1 and add them together.

One matching answer

All 40 answers are different. Follow the chain to FINISH.

Format

A4 landscape, actual size. Each domino measures 125.43 × 46.02 mm.

Answer key - the complete chain

START = D01. Use labels D01 to D41 to check the chain. FINISH = D41.
